

There's a hell of a lot on offer this week and so many extra bonus bits if you're quick off the mark.

It's great to have the LP edition of **DRIVE-BY TRUCKERS** The New Ok following on from the CD release just before Christmas which we loved. **CELESTE** has been much asked for in the last year, and this week we finally get to share it with you.

It's been a record week for **Dinked Edition announcements** and it's much the same on the new release front.

We still have **DINKED EDITION** copies of the infectious Dutch punk-laced noiseniks, **RATS ON RAFTS** release (via *Fire Records*) which we've been fuelled by all day. You'll be blown away by the attention to detail on this package, exactly what Dinked is about.

**LICE** (who have shared stages with IDLES, The Fall, Squid, Fat White Family, Girl Band) release a concept album structured as an experimental short story, taking cues from Brian Catling, William Burroughs and Kurt Vonnegut Jr. Unbelievably, we still have **DINKED** copies of this one available as well.

First through the speakers here tomorrow though will have to be the **PJ HARVEY Is This Desire? Demos** release.

Please note, we have added a new tab to the top of the website where you will find info about **FORTHCOMING RELEASES**. Any releases that get delayed will be moved to the relevant date as we find out.
