

February already?! Hopefully the January blues are behind us all and the lighter evenings are bringing everyone a much needed lift. If in doubt, we'd prescribe a healthy dose of new music exploration to keep you going.

Starting with the FFs, both **FLEET FOXES** and **FOO FIGHTERS** have been our joint-first-most-pre-ordered titles of the year so far, and it's great to see the return of both, FFantastic!

We have some special beer / tea mats to go with the Foo's new release, while stocks last. Keep hydrated at all times. Please be aware, after a last minute surge in pre-orders, we are down to our last few copies of the (now deleted) indie exclusive **FLEET FOXES** LP but hope to have some of the standard pressing in next week.

New comers **BLACK COUNTRY, NEW ROAD** have been gaining traction in the last couple of years and we know they impressed a lot of our regulars who caught them at the Swn festival in 2019. The limited Indies "inverted artwork" LP edition is not to be missed!

SARATHY KORWAR's *More Arriving* LP was never far from the shop stereo when it came out in 2019 so we'll be lapping up the chance of new music from him and his **UPAJ COLLECTIVE** (Upaj meaning "to improvise" in Hindi) which truly does capture the spirit of spontaneity thais promised. Vinyl only for this one, sorry.

We've not had the chance to get to know **THE ROUGH GUIDE TO AVANT-GARDE JAPAN**, but there's never been a time that this series have been anything other than exceptional, so well worth a punt if you're feeling wild this week!

COMMON brings much needed positivity and uplift to our lives in *A Beautiful Revolution (Part 1)*, and talking of which, it's a welcome sight to see more **TOOTS / MAYTALS** catalogue available on vinyl. Not before time.

As is a running theme with the supply chain "as it is" .. a few late comers this week.

You'll notice a rare opportunity to pick up a **DINKED EDITION** (these usually sell out on announcement) from **THE TELESCOPES** so if sludgy psych-shoegaze is your bag, check these out!

It's worth noting, **TRANSATLANTIC** *The Absolute Universe*: There are TWO completely different versions of this album. "We wrote fresh lyrics and have different people singing on the 1CD version tracks as compared to those on the 2CD. We revamped the songs to make the two versions different."

So now you know!

Don't forget we've added a handy FORTHCOMING RELEASES tab to the site, and info re ordering is on the front page as well. Request away!
